# Recognize

---

Whose battle is this?

- The problem of misidentification
- The joy of dependency

The need may be too big for me  
but not for my God

## Wait

---

- The ultimate question is not what should we do but what does God want.
- Failure isn't final; oft times it is simply the prelude to great things.
- Just because you are on the side lines does not that you will remain there.

## To Go . . .

---

- What needs to you see when you look out on the world?
- What tangible need makes you want to pound the table?
- What is God calling you to do or be that might change the status quo?
- Next week: Exodus 3:1-10
